## PROFESSIONAL SUMMARY

Hardworking and relentless software engineer with **4 years** of **experience** and a strong passion for technology and problem-solving. Possessing excellent coding skills, attention to detail, and a persistent work ethic, ready to bring these qualities to a challenging role and contribute to developing cutting-edge software. Determined to continue learning and growing as a developer, eager to work with a team and collaborate to deliver exceptional results.

---

## PROFESSIONAL EXPERIENCE

### Mobile Application Developer ● Gandaria Ventures Limited ● December 2024 - Present

- Successfully developed Speedax, a cross-platform **fintech** application for **Android** and **iOS**, enabling seamless **payments** for various services.
- Implemented **biometric authentication** features, including **Face ID** and **fingerprint** recognition, enhancing app **security** and user convenience.
- Implemented **internationalisation (i18n)** and **localisation (l10n)** to support **multiple languages** and regions, enhancing the app's accessibility and global reach

### Mobile Application Developer ● Glimpse Foods ● January 2024 - November 2024

- Managed and optimised **4** distinct **mobile applications** for a food delivery company, ensuring seamless integration and performance across platforms.
- Resolved complex, recurring build issues, fixed multiple bugs, and enhanced app stability.

### Mobile Application Developer ● Trowpass ● June 2023 - March 2024

- Developed and deployed a user-friendly mobile application for a **FinTech** company, enabling seamless transit payment
- Collaborated on implementing seamless app-server communication via RESTful APIS for payment processing and data retrieval
- Received recognition for consistently meeting project deadlines and delivering high-quality code, contributing to the **successful launch, continuous improvement** and adoption of a transit payment app

### Mobile Application Developer ● FarstCart Technologies Ltd ● May 2023 - Feb 2024

- Played a key role in developing **3 variations** of a grocery shopping app, ensuring timely delivery and adherence to project milestones, as a **volunteer**
- Collaboratively designed and developed a comprehensive set of reusable widgets, resulting in significant time-saving during subsequent feature implementation
- Collaboratively implemented seamless **Google, Apple** and **Facebook sign-in** functionalities, enhancing user convenience and streamlining authentication
- Successfully integrated FlutterWave **payment gateway** for streamlined and **secure payment processing**

## PUBLISHED APPS
